March 30, 2020

To the Citizens of Kyle

At this time as we continue to fight the battle against COVID-19, I would like to thank everyone for being diligent with observing social distancing.

I want to thank all the local businesses that are still serving our citizens to the best of their abilities, with extra cleaning and disinfecting to home deliveries of groceries and the food service industries doing takeout orders only while still keeping the environment safe for all.

To all those that have been working on community programs and projects that had to be postponed or cancelled, I want to say thank you as your dedication to our community does not go unnoticed.

Our Town office is closed to the public, but you still can drop off any payment as the outside door is open and there is an envelope by the inner door. You can also use online payments or call the office for credit card payments. As we continue to serve the public, any concerns or needs from our office staff or public works department please call 375-2525.

I would like to thank the Kyle District Health Centre staff for their dedication to the residents at this difficult time.

If you want regular up to date information, you can readily access it on the province's website [www.saskatchewan.ca](http://www.saskatchewan.ca) ( follow the links for COVID-19) and follow our Facebook page for updates. There are printed handouts available at the office if you do not have internet access.

Like everyone else, we do not know how long this pandemic will last, but if we do our due diligence, we can flatten the curve and keep our town safe.

As we go forward I want to remind everyone to be kind to each other and be safe.

Sincerely,

Doug Barker, Mayor
